# UNFINISHED

## JUNE 2017 UPDATE

### A Message Update From Ben

Unfinished is transforming and stretching RiverGlen. I am encouraged by the energy throughout our entire church! I pray each of us experiences God working through and in us this summer and that we stay strong in our commitments to Unfinished. In this newsletter you'll read stories about how your Unfinished giving is impacting people, our online campus development, and our church planting and outreach mission. God wants us to maintain our momentum in reaching out to others to make more and better followers of Jesus. This past May we welcomed J. Warner Wallace to share his personal testimony to over 2,000 people. We pray his message encourages all of RiverGlen become better case makers for Christ, and convicts the hearts of those who struggle with doubt.

God isn't finished yet with us as disciples.

Yours on the Mission,

*Ben Davis*

*J. Warner Wallace graciously shared a link to get all of his research study materials for free:*

## UNFINISHED CHURCH: Online Campus

This fall we're launching our online campus, allowing us to give even more people access to what God is doing through RiverGlen! The Technology and Adult Ministry teams are busy planning to ensure our investment in technology supports campus needs and creates a welcoming atmosphere. Our first major investment includes infrastructure upgrades of fiber internet services, expanding our band width and streaming capabilities. Mike Johnston, our Director of Technology is currently comparing bids for a wide range of equipment that will be needed to make this campus a reality. John Howard, from Adult Ministries, is working to assemble a team of online campus hosts - a critical part of the online experience. This is an exciting journey that will bring additional training needs and volunteer opportunities. We can't wait to see how God uses all of us to reach more for Him!

make a commitment, visit [riverglen.cc/unfinished](http://riverglen.cc/unfinished)*

# UNFINISHED MISSION

## OUR HAITI PLANT: “Church on the Hill”

Haiti Team

On June 17th, 15 individuals from RiverGlen headed to Port Au Prince, Haiti to start our 6th church plant. This will be funded by the UNFINISHED Commitments, and will be part of the Association of Green Churches in the city of Onaville. Pastor Noel, a native of Haiti, has overseen this entire association of churches. He has asked RiverGlen to help build this “church on the hill.” The church will be constructed out of block, have a water station as well as a food depot. Long term plans include Mission Discovery moving their Hold the Children school to this hill location.

This church will minister to many individuals who have been relocated out of the tent cities that sprung up after the massive earthquake that devastated Haiti in 2010. As the country continues its work of physical restoration, RiverGlen is partnering with Mission Discovery to present the hope of spiritual restoration through Jesus. It will be exciting to continue this partnership and watch God transform this UNFINISHED community on the hill!

Ben Davis with Pastor Noel of “Church On The Hill”

## OUR PITTSBURGH PLANT: “One Church”

In January, Brandon and Danielle Stephenson set out to Pittsburgh to begin their journey of planting One Church! They’ve been busy building community awareness of One Church by serving in community events and festivals. They are committed to answering needs in their community through engagement activities like providing an Outdoor Family Movie Night for the local township. Brandon asks for our continued prayers and support as they build their growing Launch Team and further negotiate the costs on their targeted location.

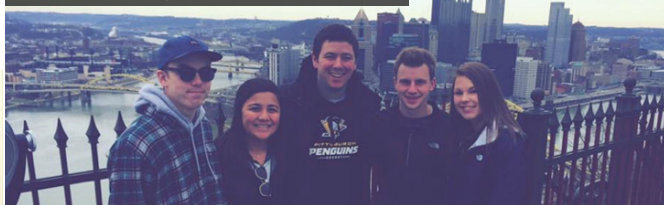

Take a look at their final logo!

Also, be sure to be here for our  
**All Church Celebration Weekend  
on August 26th & 27th.**

We will welcome Brandon for the weekend and celebrate what God is doing through One Church!

## Habitat for Humanity

Delivering the check for the next Habitat for Humanity house

RiverGlen has partnered again with Habitat for Humanity to help transform Waukesha! In May, Sue Vock presented a check and signed the papers to sponsor our second house build! You can see this house on White Rock Avenue in Waukesha. Our Saturday Serve Days this past May marked the kickoff of our build with the participation of over 52 RiverGlenners. Help support this mission of building community and sharing Christ's love with others in Waukesha by signing up for one of our build dates this summer!

Visit [www.riverglen.cc/love-waukesha/](http://www.riverglen.cc/love-waukesha/) to sign up!
